Most of my members are on a very, very tight budget and need every bit of extra money they earn to pay their credit card bills, rent, gas and food each month. So they don't really have any extra money each month to spend on anything. But they do have a burning desire to improve their credit report and credit scores because they're tired of being extorted out of their hard earned money every time they need to buy or rent something from companies demanding large down payments, high interest rates, or other ridiculous provisions like huge deposits because they have bad credit or low credit scores.

So that's why I wanted to mention to you a very unique source that can give you passive or better known as re-occurring extra income every month by virtually doing nothing so you can have some extra cash to pay off your credit cards, put gas in your car, pay rent and food each month. No more stressing each day...

Paying Off \$72,000 In Debt By 2009

But first I have to tell you that today I stumbled upon a blog where this lady was trying to pay off her \$72,900 debt by 2009 and was documenting each day on her blog what she was doing to actively payoff her debt.

She started to post to her blog about paying off her massive debt in May of 2007 by documenting each day how she is earning extra money by working only a couple of hours each day online while taking care of her new baby. She documents everything and I do mean everything! Including exactly what she does to earn the money each day online and exactly how much she makes.

She is already earning extra income every day, and week. In fact her first month she made about \$1,500 then the next month in June she made an extra \$1,800, then in July she made \$3,046 and so far for the first 3 days in August she has made \$325.

After reading her blog I can tell you that she has been very detailed in what she has been doing each day to try and reach her goal.

Did I mention that she is married and a stay at home mom with a new baby??? Cute baby by the way...

How Is She Doing It?

You might be asking the same question I was...How is she doing it? How is she making that kind of extra money so quick? And how is she able to get her income to “snow ball” each month so quick?

Well actually what she’s doing is quite simple but I had no idea you could make that kind of money doing what she is doing. However, she has put an ingenious twist to it....

So clever, yet powerful enough that it can earn you income immediately after implementing it and it will still earn you money day after day even when you stop using it! There is no way to turn it off. It will still pay you. That’s what got my attention....

The beauty of this is that it has a viral affect. No that doesn’t mean a computer virus. The viral affect is that when one person uses it and then tells another person to use it and that person tells another person to use it. Then it becomes viral. It’s a marketing term because it spreads so fast from person to person while you reap the profits of all the others. When you use this technique and you refer another person and that person refers another person you get some of the money from all of the people they refer without you having to do anything! Very powerful and it will make your head spin....

So What Exactly Is This Income Secret About, and How Does It Work, You Ask?

Read on....

Don’t you hate to keep seeing a bunch of ads and sales pitches every time you get online to check your e-mail or surf the Internet? I sure do its very annoying...

You know? Those ads trying to get you to take a survey for this and a survey for that. Join this program and join that program.... It goes on and on....

Well that’s all fine and dandy for the people who want to do that sort of thing. But I’m not interested...

However what I am interested in is to have people who like to do that sort of thing automatically make ME money while they make money for themselves filling out surveys and free offers.

So I do nothing except tell people where to go to get started and why they should consider doing this for extra income to payoff credit card bills, pay rent, and buy food each month and their happy as pigs in slop because their making incredible amounts of easy money AND paying their bills each month with extra money left over.

Ingenious Isn’t It? Well That’s Only Part Of The Genius...

Like I said, you do not have to fill out surveys or signup for offers! Do it with no work on your part by Letting others do it for you.... while you kick back and watch the money roll into your account. You can request that a check be sent to you even if your earnings are \$10 for your first day. But trust me you can earn way, way more than \$10 each day with this....

It Gets Even Easier Though....

So how do you get others to make money for you? Here is the genius touch added for you....

Simply send this same report to your family, friends, or others who you think may benefit from this. Then all of your families friends, or others, who they think may benefit from this report will also send it to their family, friends, and others.....and sit back and watch your account earnings grow day by day and you will be laughing all the way to the bank. You may even feel a little guilty its so easy.

Using “Bored Housewives” and “Stay at Home Moms” With Kids

Do you know how many bored housewives, stay at home moms with kids, people with no jobs, retired and disabled folks, or people who will spend just a few hours each day that are willing to earn extra money with this???

They are everywhere! Let them do the work for you. They will be making great money by filling out surveys and free offers to feed Jr., play bingo, drink beer or if their smart pay off their monthly credit card bills and debt. The beauty of this is that you will automatically get paid from their efforts. No they don't earn less because you get a cut too. It's a win/win situation. But the genius part like I said is, you don't need to do anything (unless you want to). Let others do the work for you.
